I liked this book but found it some what odd. As for plants 1920-1960 animals, fungal hybrids and polyploids display structural and functional modifications compared to their progenitors and diploid counterparts. Just a moment while we sign you in Class your Goodreads account. It was only in the last third of the book where Beck actually started to act like he liked Riley romantically, this was a case of too little too late for me - especially when Riley talked about her love for him from the start of the book.
